Details

Over all values of **Time spent on social media (Hours)**, **Home Location**, and **Gender**, the sum of **Time spent on social media (Hours)** is 154.

The summed values of **Time spent on social media (Hours)** range from 0 to 9.

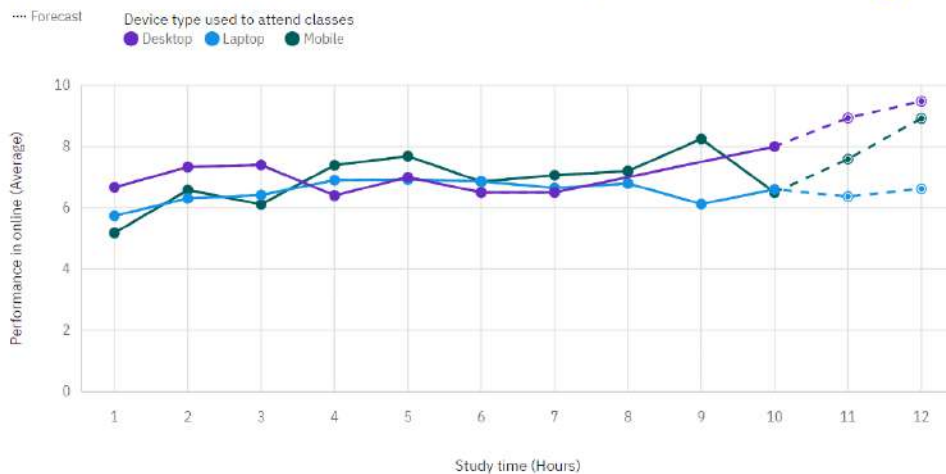

Time spent on social media (Hours) is unusually high when **Time spent on social media (Hours)** is 2.

For **Time spent on social media (Hours)**, the most significant value of **Gender** is Male, whose respective **Time spent on social media (Hours)** values add up to over 1500, or 57.2 % of the total.

For **Time spent on social media (Hours)**, the

Performance in online by Study time (Hours) colored by Device type used to attend classes

Details

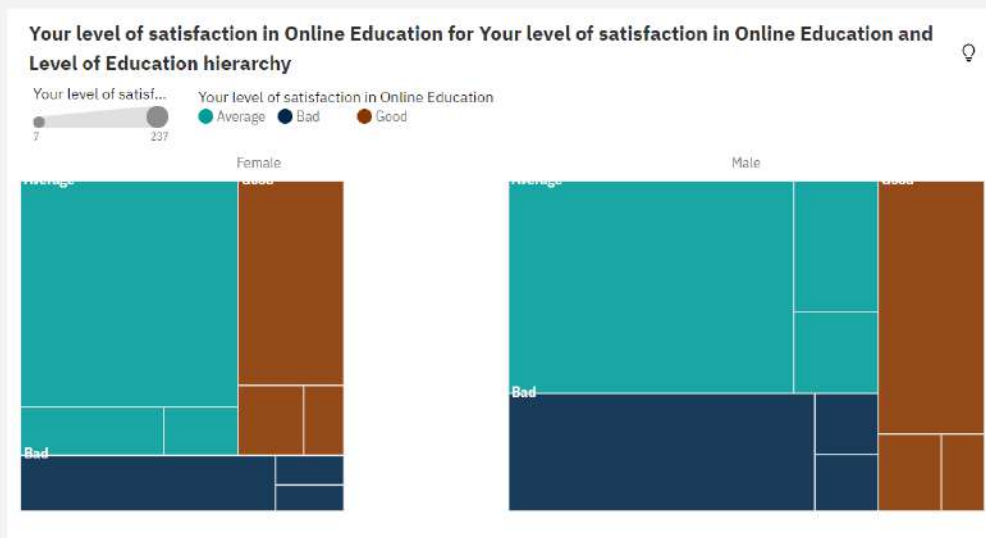

Over all values of **Study time (Hours)** and **Device type used to attend classes**, the average of **Performance in online** is 6.696.

The average values of **Performance in online** range from 5.179 to 8.25.

Performance in online is most unusual when the combinations of **Study time (Hours)** and **Device type used to attend classes** are 1 and Mobile, 5 and Mobile and 1 and Laptop.

Performance in online is most unusual when **Study time (Hours)** is 1 and 5.

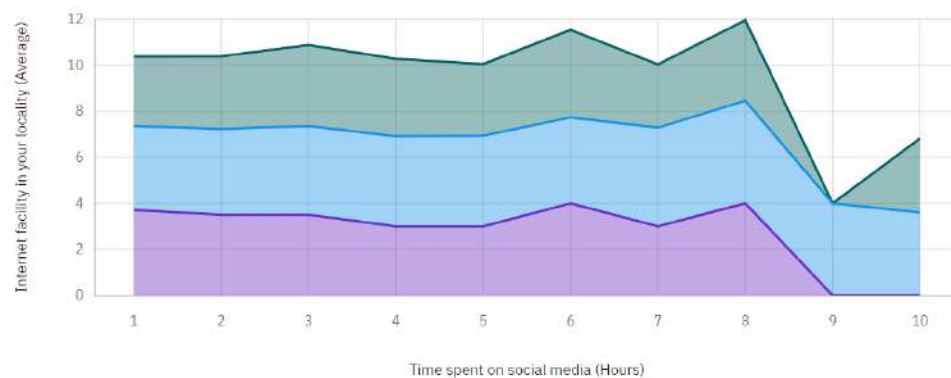

4 is the most frequently occurring category of **Study time (Hours)** with a count of 213 items with **Performance in online** values (20.6 % of the total).

Details

Average|Under Graduate is the most frequently occurring category of **Your level of satisfaction in Online Education - Level of Education** with a count of 430 items with **Your level of satisfaction in Online Education** values (41.6 % of the total).

Male is the most frequently occurring category of **Gender** with a count of 614 items with **Your level of satisfaction in Online Education** values (59.4 % of the total).

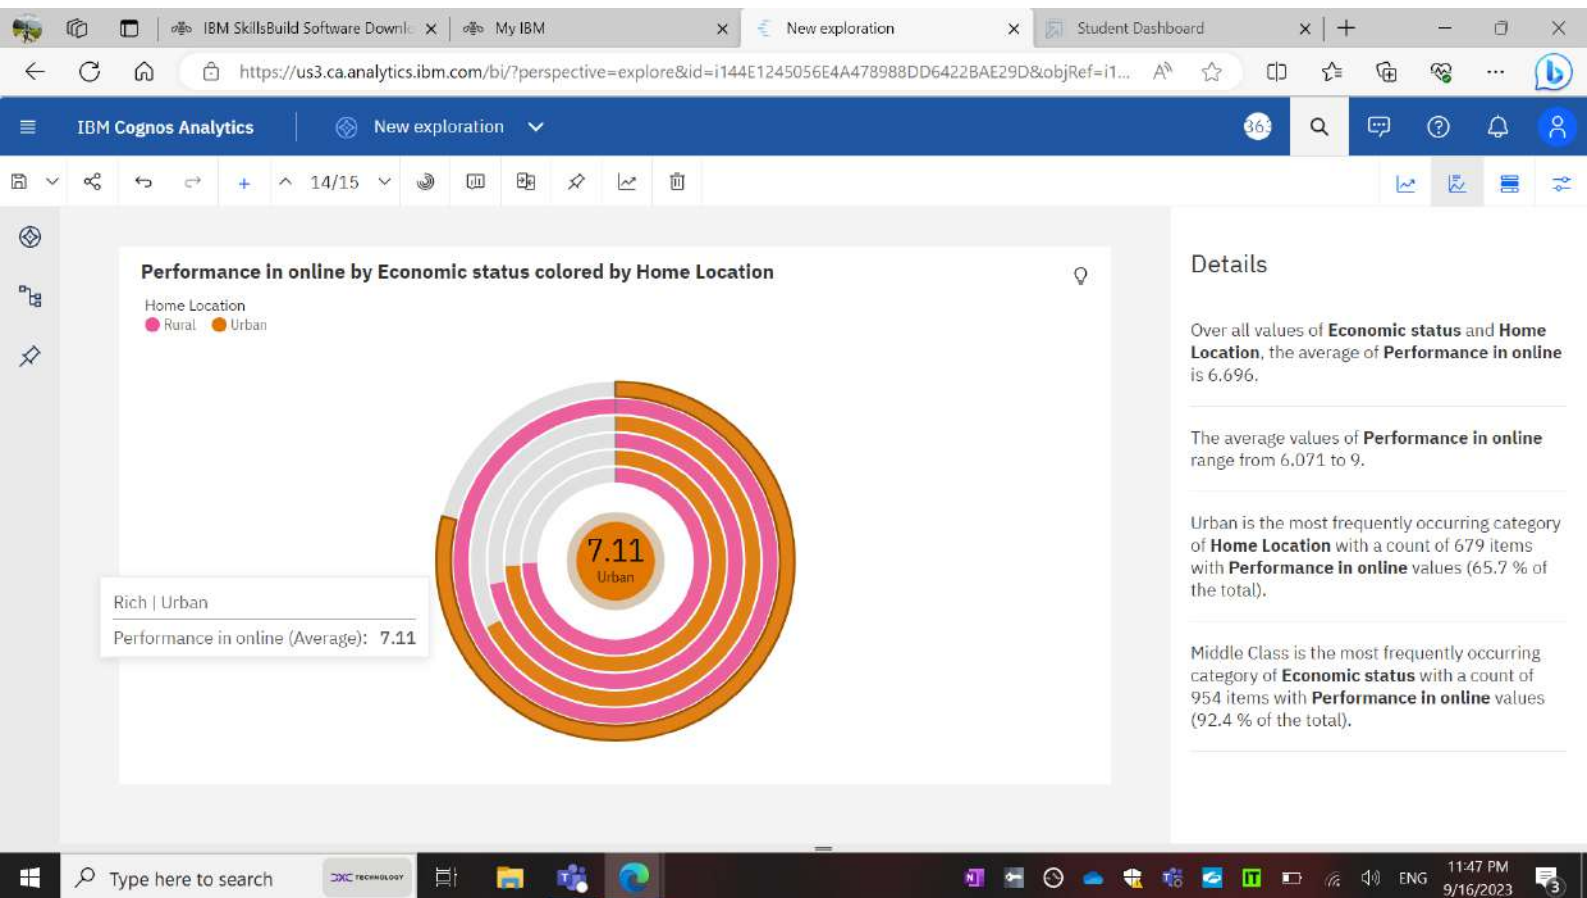

Over all values of **Time spent on social media (Hours)** and **Device type used to attend classes**, the average of **Internet facility in your locality** is 3.587.

The average values of **Internet facility in your locality** range from 2.75 to 4.455.

Internet facility in your locality is unusually low when the combinations of **Time spent on social media (Hours)** and **Device type used to attend classes** are 1 and Mobile and 2 and Mobile.

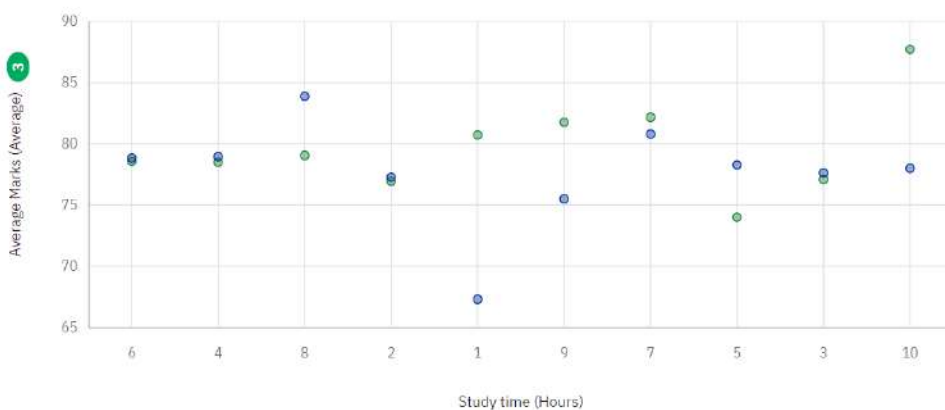

Internet facility in your locality is unusually low when **Device type used to attend classes** is Mobile.
